## **TEACHING FOR SOCIAL JUSTICE AND DEMOCRACY SPEAKER SERIES**

*Dr. Jamie Doronkin, Associate Professor*

Becoming Trauma Informed is an ongoing process and journey that begins with an awareness of how trauma is defined, followed by an understanding the origins of trauma through adverse childhood experiences (ACEs), and then becoming sensitive to the lifelong impact trauma can have in our lives. Come start this journey in this session offered through the Multicultural Affairs office and Center for Excellence in Teaching and Learning (CETL).
