

## Curricular Change Form

### Motion to Add or Delete a Program

Please consult instructions for submitting curricular proposals located [here](#).

The proposed change would:

At which level does the program exist?

The proposed change concerns:

**Name of Motion:** Delete the Major in Biology for Secondary Education

**Department:**

#### **MOTION**

**It is moved that:**

The Major in Biology for Secondary Education be deleted

**Proposed term of implementation:**

**Rationale (200 words or less):**

The major in Biology for Secondary Education is an under-utilized major that requires several courses unique to this program and taxes the already scarce faculty resources of the department. Currently there are no students enrolled in the major and in recent years only two students have graduated with this degree. The lack of interest makes it very difficult to have high enough enrollment for courses to "make" and we end up needing extensive substitutions in order to get the students the appropriate skills. It is more appropriate for students to get a degree in biology and separately to gain their certification to teach.

**Does this change affect other departments/colleges?**

**If yes, describe how those departments/colleges were consulted.**

Jamie VanDycke was notified via e-mail on 8/28/18

**DELETED Program Only: Please describe the effect on current enrolled students:**  
None - no students are currently enrolled.
